Pacific Surfliner Equipment Update

LOSSAN Technical Advisory Committee | May 2, 2024

Pacific Surfliner Equipment

- The Pacific Surfliner service has been utilizing bi-level cars since 2000
- 39 custom Surfliner cars were purchased new by Amtrak and 10 cars by the California Department of Transportation (Caltrans) between 1998-2001 for specific use on the Pacific Surfliner service
- Over the years, as ridership grew, additional cars were needed to lengthen trainsets and add more service
- The additional cars were leased from Amtrak's long-distance bi-level Superliner and regional single-level Horizon fleets

Pacific Surfliner Equipment Reduction

March 2020 - ridership dropped significantly due to the COVID-19 pandemic.

Level of service was reduced 50-percent

Fleet size was reduced 29percent

E	quipment Type	Feb 2020	May 2021	May 2024
Locomotives	SC-44 Charger	14	14	14

TOTALS	Total Cars	86	61	62

^{* 1} coach / baggage and 2 coaches are currently out of service due to a vehicle strike in December 2023.

California Intercity Passenger Car History

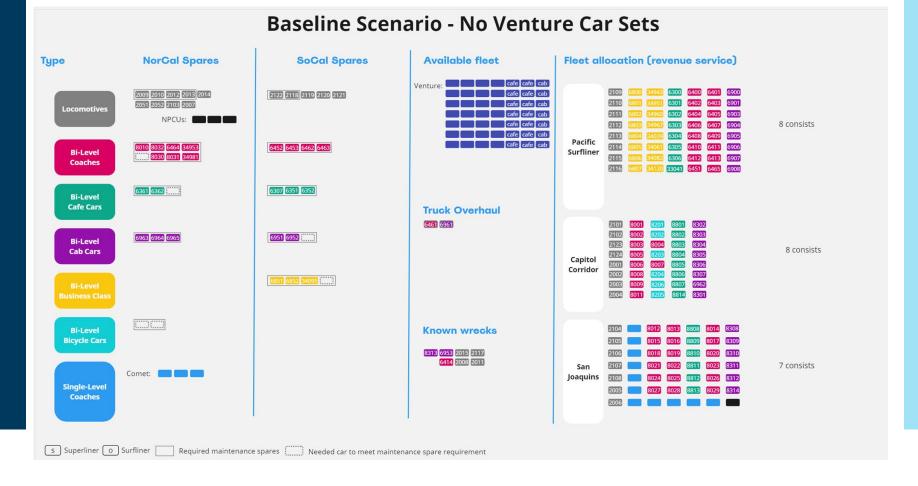

There has been a need for additional equipment since before to the COVID pandemic

In 2017, Caltrans placed an order for seven 7-car trainsets of the new Siemens, single-level Venture cars.

- Various issues have delayed deployment by several years.
- First coach cars began going into revenue service in December 2023
- Cab cars are not anticipated to be in service until at least July 2024
- Food service cars are not expected to be in service until July 2025.

California Equipment Redeployment Plan A fleet redeployment plan for the existing Surfliner and California 1 bi-level equipment was developed in originally in 2022 and was updated earlier in 2024.

California Equipment Redeployment Plan

The update made to the plan in 2024 was to account for delays, as well as several additional overhaul projects and equipment work that was not included in the original plan prepared in 2022.

This included:

- Adjustment to reflect further delay in Venture car deployment
- Truck and door overhaul programs necessary for the state-owned bi-level cars to remain in SOGR
- Extensive rebuilding of some bi-level cars due to incidents that have occurred over the past two years, which have taken some cars out of service

California Equipment Redeployment Plan

As Venture trainsets enter service, equipment will be redeployed to the Pacific Surfliner

No. of Venture Sets in Revenue Service	0	2	3	3	4	6	7
Bi-Level Car Classification	Baseline (Oct 23)	Phase 1 (~Apr 24)	Phase 2A (~Jul 24)	Phase 2B (~Jul 24)	Phase 3 (~Oct 24)	Phase 4 (~Dec 24)	Phase 5 (~Jun 25)

Surfliner Business Class	10	10	10	10	10	10	10
Superliner Coach	9	9	11	10	11	11	11
Superliner Sightseer Lounge	1	1	1	1	1	1	1
Comet Coach ³	0	7	7	7	7	7	7
NPCU ^{2,3}	0	2	2	2	2	2	2
TOTAL	62	71	75	72	76	80	83

¹ One cab and two coaches are out of service due to wreck damage.

² Non-Powered Control Unit

³ Special event use only

Deployment of Venture cars enables an increase of four trainsets – enough to restore pre-pandemic service levels

Equipment Needs for Service Growth

Options for expanding service and capacity beyond pre-pandemic service is limited in the near-term.

Options being considered include:

- Evaluate the feasibility of procuring four additional 7-car trainsets of the new Siemens, single-level Venture cars
- Work with Caltrans to develop specifications for a new bi-level procurement
- Identify segments of corridor where procured ZEMU's can operate to meet demand
